**Compensation for 6.821 t CO<sub>2</sub>  
with a value of EUR 168.00**

**Donation of EUR 6.00**

### **Thank you for your commitment to climate protection!**

Support the reforestation project in Nicaragua, the second-poorest country in the western hemisphere. Small-scale farming families are reforesting unused sections of their land with native species. The programme combines practical nature conservation with the creation of new income sources for local families.

**Guarantee:** myclimate shall be obligated to use your compensation to save the aforementioned quantity of climate-polluting greenhouse gases (CO<sub>2</sub>) in a climate protection project. All climate protection projects shall be carried out by competent partners and checked by independent experts. myclimate applies only the strictest, independent quality standards (CDM, Gold Standard and Plan Vivo) when it selects and develops climate protection projects.
